I graduated graphic design at Fanshawe College here in London in August 2008 and then, most recently, graduated Multimedia Design and Production in April 2008. I am now looking to expand my knowledge of the design industry. I am proficient on Windows and Mac Operating systems and have an excellent grasp of many of current graphics programs such as Photoshop, Illustrator, Fireworks, Flash, Dreamweaver, After Effects, 3D studio Max, and QuarkXpress. I am a hard worker and take pride in my work. I am a great candidate for any available positions you may have. I am determined to succeed and I am always interested in acquiring new skills.

I am a quick learner and always up for a challenge. I have great people skills and have a great work history. Every employer I've worked for so far has always been willing to give me my job back at any time. I am pleased by this because when I work somewhere I become part of that company and do my best to elevate the quality of work being produced.

Sincerely,

Devin Boyd
graphic designer
